Staff presented a position of Administrative Services Director that was nearly identical to the vacant Clerk/Treasurer position but added acting city administrator in the city administrator's absence.

The proposed position would be funded by a 50% split between the city general fund and 25% electric fund, 12.5% water fund, and 12.5% sewer fund; starting salary range would be Grade 12, \$68,890 - \$72,342. MOTION made by Baldwin, seconded by Christianson, voted on by roll call;

Aye: Ardner, Baldwin, and Christianson

Nay: none

motion unanimously carried to approve the Administrative Services Director position as presented and directed staff to begin the recruitment process.

- c. **2020 Budget Amendment:** King presented amendments to the Utility budget and explained the city's audit firm, BerganKDV, stated the EDA was a blended component unit of the city therefore, the contribution of \$20,000 to the EDA from both the City and the Utility should have been considered transfers. MOTION made by Baldwin, seconded by Christianson, voted on by roll call;

Aye: Ardner, Baldwin, Christianson

Nay: none

motion unanimously carried to approve the 2020 budget amendments, as presented.

- d. **2021 Budget, CIP, and Fee Schedule:** The 2021 budget was presented for final review and Crawford pointed out recent adjustments including the addition of \$28,000 for the Administrative Services Director and \$43,000 for City Garage, HR, and IT expenses, in addition to reductions of (\$49,000) for well #4 controls and (\$32,000) for the Airport Lift station that were also listed in the Capital Improvement Plan.

Staff recommended utilizing reserve funds to keep the utility rate increases low or at zero using \$325,229 from the Electric Fund, \$149,396 from the Water Fund, and \$306,064 from the Sewer Fund for each fund respectively.

The PUC reviewed and discussed the 2021 Capital Improvement Plan and 2021 Utility Fee Schedule. Crawford explained the reason for the addition of electric connection and construction fees to the 2021 Fee Schedule was because the utility was losing money for staff time spent on local electrical construction/connections and after surveying SMMPA communities, it was evident Mora should be charging for those services. MOTION made by Baldwin, seconded by Christianson, voted on by roll call;

Aye: Ardner, Baldwin, Christianson

Nay: none

motion unanimously carried to approve the 2021 budget, capital improvement plan, and utility fee schedule as presented.

9. Old Business:

- a. **Delinquent Water Utility Accounts Procedure:** The PUC discussed procedures relating to delinquent water utility accounts as they related to city code. Current city code §50.24 explained the process in regard to certifying unpaid utility charges, however it also stated water services would be disconnected if left unpaid; akin to how delinquent electric accounts were handled. Bliss explained the reasons to disconnect and certify water/sewer had been practiced because water/sewer rests with the property, electric did not. Staff was directed to amend city code language from "will disconnect" to "may disconnect" and bring to city council for review and consideration.

10. Communications: The following communications were reviewed.

- a. Utility Billing Monthly Report – November 2020
- b. Utility Billing Adjustments Report – November 2020

11. Reports:

- a. Public Utilities General Manager: Crawford stated the \$40,000 Digger Derek truck (not yet purchased) from Lake City saved the city from having to purchase a new one at \$270,000, SMMPA reached a settlement in the amount of approximately \$10 million and would be issuing a one-time payment of \$190,000 to the City of Mora, and last Tuesday Skramstad and Crawford met with Senator Rarick and requested legislative support to change the number of PUC members from three to five in the form of a stand-alone bill.
- b. Public Works Director: Kohlgraf reported 95% completion of the Highway 65 electric project, meeting with SMMPA and Great River Energy to discuss power pole replacements, and reported the city had enough wire on-hand to meet the needs of the power project. Kohlgraf also reported the reed beds were put to bed for the winter and S.E.H. would meet with staff to see how and why the volatile solids had been lowered; the WWTP had the lowest flow in approximately seven years indicating water going into the WWTP was close to the same amount leaving the WWTP.
- c. Commissioner Baldwin: Nothing new to report.
- d. Commissioner Christianson: Nothing new to report.
- e. Chairperson Ardner: Nothing new to report.

12. Adjournment: MOTION made by Christianson, seconded by Baldwin, voted on by roll call;
Aye: Ardner, Baldwin, Christianson
Nay: none
motion unanimously carried to adjourn at 3:37 PM.

RE Pay Equity Compliance Report

SUMMARY

The PUC will review and discuss the compliance report from the Minnesota Pay Equity Management System based on the December 31, 2019 staffing data.

BACKGROUND INFORMATION

The Local Government Pay Equity Act (MN § 471.991 – 471.999) serves to eliminate sex-based wage disparities in public employment in the state of Minnesota. Therefore, Minnesota law requires all political subdivisions, including cities, to ensure equality of pay for men and women.

Cities are required to submit a compliance report every three years and the report labeled 2020 is for previous year data. Minnesota Management and Budget’s (MMB) Pay Equity department provides a reporting tool that examines the pay structures so that MMB can analyze for compliance and assist organizations in achieving pay equity as needed.
